1. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Tomiyama and Okanobu are made of record here as pertinent art to the claimed invention.

Tomiyama discloses an AM radio receiver apparatus having PPL with plurality of oscillators, mixers, and low pass filters for turning received radio signals.

Okanobu discloses a receiver capable of receiving analog broadcast including local oscillating and mixing of the received signals and also having a plurality of LPF for eliminating unwanted signal components.

2. The following is an Examiner's Statement of Reasons for Allowance:

Upon further review of Applicant's arguments filed 11/16/2005 and 03/02/2005 with regard to the Sato's reference, it is deemed the arguments are persuasive and Sato fails to explicitly disclose all the elements as recited claimed in both claims 2 and 3. Sato's reference fails to disclose or suggest an AM adjacent interference/disturbance removing circuit specifically having a first and second multipliers, first, second and third (per claim 3) low-pass filters and a subtractor, wherein a carrier frequency,  $f_c$  of an interference AM modulation wave causing neighboring interference and the

oscillation frequencies ( $fp1$ ,  $fp2$ ) of the first and second oscillators satisfy the condition:  $fp1 > fp2$ , and  $fp1 - fc = fc - fp2$ , as recited in claims 2 and 3. And there is no suggestion or motivation to modify such specific elements into the Sato's reference. Updated search was conducted, but the newly founded references as indicated above also fail to teach or suggest the instant claimed invention.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Xu Mei whose telephone number is 571-272-7523. The examiner can normally be reached on Monday-Friday (9:30-6:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vivian Chin can be reached on 571-272-7848. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
